

Daniels Plant Food

We have been using Daniels Plant Food for 3 years now and are really happy with the way our plants grow. We apply it on all our vegetables and herbs and use it with every watering.

Daniels Plant Food is organically based (derived from soybeans) providing gardeners an eco friendly alternative to chemical fertilizers. The internationally patented formulas and technologies combine all of the essential nutrients for healthy root systems, lush dark green leaves, hearty fruits and vegetables, and magnificent flowers.

Daniels is organic in nature, child and pet friendly. It is a highly concentrated plant food that can be applied to plants of all varieties, and mixes instantly in cold water.

Benefits:

- Easy to use; mixes instantly with water
- Low in salts
- Highly concentrated; economical; very effective
- Excellent results

Usage Recommendations:

Indoor Plants: feed every time you water at a rate of 1 (one) teaspoon of Daniels per gallon of water.

Outdoor Plants: feed once a week at a rate of 1 (one) tablespoon per gallon of water. This product can be used in any hose end sprayer. Always make a fresh solution each time you feed. Discard any unused portion.
